

Contain Your Rain

Using rain water not only saves you money but is better for your plants because it is aerated, pure, soft and just the right temperature. Why not collect some today.

Make your own rain barrel at a fraction of the cost. Similar units sell for \$150.

Cost:

\$10 - Class fee only

\$30 – for supply of used plastic barrel

\$40 – for supply of retrofit kit

Retrofit Kit includes: 2 barrel fittings, 1 garden hose adapter, 1 "T" fitting, 1 screening bucket, 1 "Y" ball valve, 1 elbow fitting and hookup hose.

Dates:

Bring 4 friends and learn how to build you own rain container.
